To: **Jenni Owen**, **Kristi Jones**, **Ken Eudy**, "Morgan (at work) Jackson"
<mjackson@nexusstrategies.com>, **Julia White**, **Stephen Bryant**,
Sadie Weiner, **Noelle Talley**,
Jordan Whichard, **Brad Adcock**, **William McKinney**,
William McKinney

Below is list of individuals and orgs that Jeremy has heard from re ACP or knows that others in our office have heard from -- a few in favor, most opposed.

Organization	Individual	Notes
Support ACP		
Farm Bureau	Jake Parker (Gov. Affairs)	
Northampton County	Kimberly Turner (County Manager)	
NCEast Alliance	John Chaffee (President, CEO)	
	James Goodson (Bolivia)	One of ~ 70 constituents to send letters. Attract business, good-paying jobs, affordable energy. Construction will include \$700M in economic activity and >4,000 jobs
Oppose ACP		
Sierra Club	Molly Diggins (State Director), Cassie Gavin (Gov. Affairs)	
NC WARN	Jim Warren (Executive Director) John Runkle (Attorney)	Against fracking, the transport of fracked gas, and power generation from fracked gas
NAACP	Rev. Barber	Partner with NC WARN opposing fracking, natural gas pipeline, and natural gas power plants in NC
SELC	Brooks Rainey-Pearson (Gov. Affairs)	
Alliance to Protect Our People and Places We Live (APPPL)	Kay Reibold (Policy Advocate)	Repeated interactions with Gov. Office emphasizing their work with Nash County residents (for ex - Joe Poland, Nash County farmer)

Citizens	Cyna Woodard (ASU student), Maureen Linneman (Asheville)	
Clean Water for North Carolina	Hope Taylor (Executive Director), Ericka Faircloth (Justice Organizer, Lumbee Tribe member)	
Blue Ridge Env'tl. Defense League	Therese Vick (Organizer)	
NC Env'tl. Justice Network	Naeema Muhammed (Organizing Director)	
Concerned Citizens of Northampton County	Belinda Joyner (President)	
Rachel Carson Council	Bob Musil (President & CEO)	
Frack-free NC Alliance + 19 organizations	Hope Taylor + 19 organizations: EnvironmentalEE, 250 Triangle, No Fracking in Stokes, Appalachian Voices, River Guardian Foundation, Coastal Carolina River Watch, Nash Stop the Pipeline (represented by Marvin Winstead-Nash County native, farmer and former educator. Homeowner whose property would be impacted by the proposed pipeline. (BREDL Chapter), also a member of the Medoc Group (Sierra Club) and Sound Rivers (River Keeper Association), ...	con't ... Haw River Assembly, Medical Advocates for Healthy Air, Save our Sandhills, Down East Coalition, No Pipeline Johnston County, Women's International League for Peace and Freedom, Pee Dee Water, Air, Land and Lives Karen Bearden and 350.org

Subject: Re: Follow up - Jeremy's coal ash update

Below is an update on various coal ash issues from Jeremy, following up on Kristi's email from last week.

Alternate Drinking Water

Duke Energy must provide an alternative source of drinking water—municipal water hookup or a water filtration system—for homes within a half mile of a coal ash pond. DEQ has established filtration-system performance standards consistent with ground water standards for various constituents. DEQ is evaluating what the appropriate drinking water options are for residents located near the Roxboro, Mayo, and Belews Creek power plants. Duke Energy thinks filtration is the only option for these residents because of cost and technical issues. DEQ evaluating Duke Energy's position.

Litigation

DEQ is in ongoing negotiations with the Southern Environmental Law Center (SELC) over SELC concerns with provisions of a waste water discharge permit for the Marshall plant's coal ash pond. SELC contested the discharge permit in 2016, and the case has been stayed in OAH while DEQ and SELC negotiate. The parties have come to agreement on many issues, and DEQ anticipates public notice and comment on the resolution in December or January.

Duke Energy has been enjoined from allowing discharge from coal ash sites to impact surface or ground water. Duke Energy, SELC, and DEQ are in negotiations to establish implementation strategies that will ensure Duke Energy complies with the injunction, i.e., no further adverse water quality impacts from coal ash impoundments.

Site Assessments and Closure Plans for Coal Ash Impoundments

N.C.'s Coal Ash Management Act (CAMA) requires that Duke Energy conduct comprehensive site assessments of coal ash impoundments. Duke Energy has completed the site assessments for its impoundments but submitted revised site assessments on October 31 for some sites. DEQ is reviewing these revised site assessments to determine whether to approve them. Once approved, Duke Energy will develop a closure action plan for each site, including a strategy for closing the impoundments in a way that avoids future water impacts. Closure options include cap in place, excavation, and other strategies.

State permitting program

DEQ is considering whether to develop a state permitting program that would meet state (CAMA) and federal (Coal Combustion Residuals) requirements for coal ash management. One option is for DEQ to continue implementing CAMA and let EPA enforce the CCR (no state delegation). Alternatively, DEQ could modify state coal ash rules to comply with both CAMA and CCR and then ask EPA to delegate to DEQ the authority to implement the CCR according to the modified state rules. DEQ is evaluating which strategy to pursue.

Subject: Re: Follow up

I've asked Jeremy if he knows the latest on coal ash - I haven't heard since he shared an update a while back. Will also ask about rate info as I think he's pretty up to speed (realize Julia has asked AG).

The other items that came up at our meeting a couple of weeks ago were biowaste, clean energy jobs, grid mod, and nuclear costs.

Subject: Follow up

To be prepare for a meeting the week of 11/27, we need updates/information on the following

ACP Economic Benefit / Commerce's concerns - Ken (already asked from commerce)

ACP Environmental / DEQ concerns - Julia

Solar - Ken

Coal Ash remaining concerns - Jenni (does Jeremy have this information ?)

Rate Increase information - since this is not something we have been involved in, does anyone have information to share?

Any other issues?
